

Gabe

Gabe has worked in the fireworks business since the beginning of WPI in 2018. He accompanied Josh, owner of WPI, on trips to get product when WPI bought the business from Carter Bell. Gabe's role has expanded as the industry has boomed, so has his interest in fireworks...especially the 1.4 side of it. He likes the simplicity of 1.4 storage and that it doesn't require as much paperwork. Gabe is excited about the 1.4 Pro Series that the WPI Articles bring to the company. He enjoys pulling orders for customers...during regular pickup times. Working with the people at WPI makes it easy for Gabe to come to work each day. He likes to operate the variety of equipment on the WPI campus from dump trucks and tractors to ATVs and lawnmowers. That is the beauty of WPI, each day is different.
